T1	1	8.26.26	Design Your Own	kelley's deck	n/a	Exterior deck / patio	Base Shoe	Handrail	black	5	5	1	2	5	3.6	no	Wrong system	Wrong system	Fail	
T1	2	8.26.26	Match Inspiration	kelley's deck	image (28)	Exterior deck / patio	Base Shoe	Handrail	black	5	5	4	5	5	4.8	yes	None	None	Pass	
T2	1	8.26.26	Design Your Own	kelley's deck	n/a	Exterior deck / patio	Spigot	no hand rail	black	4	4	4	4	5	4.2	no - refinement of spigot placement - glass panels don't need to be cut up quite so much but confirm with field ops team	Incorrect placement	Incorrect placement	Pass w/ Refinement	
T2	2	8.26.26	Match Inspiration	kelley's deck	image (19)	Exterior deck / patio	Spigot	no hand rail	black	4	4	4	4	5	4.2	looks like it served the exact same rendering as the previous iteration without the insp picture; refinement of spigot placement - glass panels don't need to be cut up quite so much but confirm with field ops team	Incorrect placement	Incorrect placement	Pass w/ Refinement	
T4	1	8.26.26	Design Your Own	dowd home office (2)	n/a	interior balcony & staircase	Base Shoe	Handrail	black	5	4	1	4	5	3.8	the section along the stairs seems to be at an funky angle and the glass panel went all the way to the ceiling	Incorrect placement	Incorrect placement	Fail	
T4	2	8.26.26	Match Inspiration	dowd home office (2)	image (24)	interior balcony & staircase	Base Shoe	Handrail	black	5	4	1	4	5	3.8	missed the entire section along the stairs with refinements - had significant background drift in creating railing over drywall instead of simply replacing the railing with glass - asked it to serve	Incorrect placement	Incorrect placement	Fail	 
T4	3	8.26.26	Match Inspiration	dowd home office (2)		interior balcony & staircase	Base Shoe	Handrail	black	5	4	4	4	5	4.4	again - see second image	Incorrect placement	Incorrect placement	Pass w/ Refinement	
T6	1	8.26.26	Design Your Own	Ashley staircase (2).jpg		interior staircase	Base Shoe	Handrail	black	5	1	2	2	4	2.8	placed the railing on top of the half walk with refinements in my prompts (without an inspo pix) which consumers will not have, so this is more for the back end persoective	Incorrect placement	Incorrect placement	Fail	
T6	2	8.26.26	Design Your Own	Ashley staircase (2).jpg		interior staircase	Base Shoe	Handrail	black	5	5	4	5	5	4.8	added a glass insert in the baby gate which was not part of the prompt; also did not match the	None	None	Pass	
T6	3	8.26.26	Match Inspiration	Ashley staircase (2).jpg	image (28)	interior staircase	Base Shoe	Handrail	black	3	4	4	2	5	3.6	inspiration picture at all; so entered in additional prompts which served second image which is still a miss	Wrong handrail	Wrong handrail	Fail	 
T9	1	8.27.26	Design Your Own	pool 2.jpeg		Pool balustrade / pool fence	Spigot	No handrail	Black	4	3	3	5	5	4.0	JD might indicate this is not to code - my intent here was more about can AI do this with a uniquely shaped pool - also the first rendering had a spigot on the glass that was supposed to be the entrance so refined; still not perfect, but for the sake of this test, it did an "ok" job; also cognizant that the fence butting up against the pool is also not optimal - see notes on next test	Incorrect placement	Incorrect placement	Fail	
T9	2	8.27.26	Design Your Own	pool 2.jpeg		Pool balustrade / pool fence	Base Shoe	Handrail	Black	3	3	1	5	5	3.4	may be a better option as far as building codes; however, first rendering did not provide any entrance and fence placement may be too close to the pool's edge; so refined prompts and tried again - still struggling with actual placement of the fence; served me spigot instead of base shoe so tried again - see third image - we need better "after" images to train/teach AI on how to best serve these systems when the before image does not have a balustrade in place	Background drift	Incorrect placement	Fail	
T9a	1	8.27.26	Design Your Own	pool 2.jpeg		Pool balustrade / pool fence	Base Shoe	Handrail	Black	3	3	2	5	5	3.6	after updating prompts, still struggling with placement away from right along the pool's edge and second image has even more challenges, so AI is still confused. So with third set of prompts we oot closer	Background drift	Incorrect placement	Fail	
T9b	1	8.27.26	Match Inspiration	pool 2.jpeg	pool 5	Pool balustrade / pool fence	Spigot	Handrail	black	3	3	2	5	5	3.6	testing this to see how AI renders more so than is this to code or proper placement given no existing fence in place	Incorrect placement	Incorrect placement	Fail	
T10	1	8.27.26	Design Your Own	pool 3.jpg		Pool balustrade / pool fence	Spigot	No handrail	black	4	5	5	5	5	4.8	much better when there is an existing fence that needs to be replaced with a glass balustrade	Background drift	Background drift	Pass w/ Refinement	
T10	2	8.27.26	Design Your Own	pool 3.jpg		Pool balustrade / pool fence	Base Shoe	Handrail	black	4	5	5	5	5	4.8	much better when there is an existing fence that needs to be replaced with a glass balustrade	Background drift	Background drift	Pass w/ Refinement
